LANGUAGES

English B2
Spanish Native

EDUCATION

**UNIVERSIDAD
AUTÓNOMA DE SINALOA**

**2016 - 2021
Bachelor's Degree in
Computer Science**

GPA: 8.3/10

Notable Project: Developed a payment system similar to PayPal in PHP and MySQL.

TECHNICAL SKILLS

WEB DEVELOPMENT

Frontend: React.js,
JavaScript, HTML, CSS

Backend: Python, Node.js,
PHP

Database: PostgreSQL,
MySQL, Informix

PROFILE

Computer Science graduate with experience in web programming, process automation, and incident analysis. I stand out for my self-learning ability and problem-solving skills. I have worked with various technologies and ERP systems without prior training, optimizing processes through automation and the development of digital tools. I am seeking new opportunities to continue growing in the IT field.

EXPERIENCE

SERVICE ENGINEER / INCIDENT ANALYST

AFORE COPPEL | JUN 2021 - JUN 2024

- Automated reports in Google Sheets for equitable incident management.
- Analyzed information flows in various languages (Python, JS, HTML, PHP, Java, C#, C++).
- Manipulated databases in production environments (PostgreSQL, Informix).
- Resolved critical incidents under pressure and made immediate decisions.
- Used tools such as VNC Viewer, Linux, Git, WinSCP, and OpenShift.
- Supervised the team as a substitute leader in the absence of the immediate boss.

TOOLS AND TECHNOLOGIES

ERP: Microsip

Version Control: Git

Infrastructure: Linux, OpenShift, VNC Viewer, WinSCP

Automation and Bots:

Google Sheets Scripts, WhatsApp-js

Digital Marketing: Social media strategies

SOFT SKILLS

- Working under pressure and problem-solving
- Self-learning
- Leadership and team management
- Analytical thinking
- Adaptability to new technologies

CERTIFICATIONS

EF SET

JUN 2024

EF SET English Certificate 59/100 (B2 Upper Intermediate).

IBM

JUN 2024

Python for Data Science

UNIVERSIDAD

AUTÓNOMA DE SINALOA

AGO 2021

Diploma in Web Development with Cloud Services Infrastructure

PERSONAL INTERESTS

SPORTS

FUTBOL, BASEBALL, SOFTBALL

VIDEOGAMES

MEETINGS WITH FRIENDS

WEB PAGE ADMINISTRATOR

EQUIPOS MUSICALES Y ELECTRÓNICA | OCT 2024 - PRESENT

- Automated files for inventory control, ensuring accurate stock updates on the website.
- Developed a WhatsApp bot using the WhatsApp-js library to improve customer service.
- Implemented digital marketing strategies on social media.
- Used Microsip ERP without prior training for sales, billing, and inventory management.

NOTABLE ACHIEVEMENTS

- Automation of reports in Google Sheets to improve workload equity.
- Creation of a WhatsApp bot for customer service and automated recommendations.
- Implementation of automated inventory control to prevent stock errors.
- Self-taught learning of Microsip ERP and various tools without prior training.
- Development of a PayPal-like system in PHP during university.
- Team leadership at Afore Coppel, managing workflow in the absence of the boss.
